EVENT BOOKING

Team 10

INSTAGRAM - BOOKING

Now book your events and reserve a table at restaurant through Instagram

Current User-Base

More than 130 million users tap on Instagram Shopping every month

32% of US Instagram users are 25-34 Years

22% (37 million) are 18-24 Years

19% (31.5 million) are 35-44 Years

Problem Statement & Pain points

An Instagram user who is influenced by the content on the platform to explore has to go through the hassle of booking events/restaurants through third-party platforms

- No filtered search

- Limited info on events/
restaurants

- Difficulty in tracking nearby
events

Vision

For the explorers on instagram, we are providing an in-app booking feature that lets them reserve Restaurant Seats and Book event tickets

Northeastern Marketplace

An exclusive marketplace for the
Northeastern's student community

Problem statement

Northeastern University students encounter challenges when buying and selling essential items to and from fellow students. These challenges stem from the absence of a dedicated local market space and the prevalence of irrelevant, misleading, or untrustworthy listings on online platforms.

Product Vision

To build a safe and user-friendly online marketplace for the Northeastern student community.

User segment

Individual Sellers

Northeastern students who want to sell items they no longer need, such as furniture, clothing, electronics, and more. They can create listings to reach potential buyers within Northeastern.

Buyers

Northeastern students in search of second-hand or new items at reasonable prices. Buyers can use Northeastern Marketplace to discover and purchase products.

User pain points

Limited Trust and reliability

New students find it challenging to trust the authenticity of listings they find online as there is a risk of encountering scammers and fraudulent listings, which can lead to financial loss or security issues.

No affordable local market space

There is a lack of a centralized, easily accessible, trustworthy marketplace dedicated to students to purchase new and used items at a reasonable price.

Online Marketplace issues

Online platforms that sell products are flooded with irrelevant listings, spam, and sellers from different locations making it challenging for students to find genuine, local sellers for their necessities.

User Persona

Elain is a tech-savvy young professional pursuing MS in Engineering Management at Northeastern University. She loves to paint, read fiction and enjoys exploring new places.

Goals and Motivations:

Finding Bargains: As an international student, Elain likes to save money by hunting for good deals on a wide range of second-hand products, from furniture and clothing to electronics and home appliances. She is always on the lookout for high-quality items at affordable prices.

Behavior and Usage:

Regularly checks Northeastern Whatsapp communitites for new listings and frequently interacts with sellers and buyers. Prefers negotiating prices and discussing product details with sellers through messaging on the platform.

Challenges:

Safety Concerns: Elain is cautious about meeting strangers for transactions. She's concerned about personal safety and the authenticity of the products. She is also worried about the scams that take place online.

Name - Elain

Age - 23 years old

Occupation - Student

Location - Boston

Competitor Analysis

Verification of sellers	✗	✗	✗
Dedicated to student community	✓	✗	✗
Filter based on location	✗	✓	✓

User Survey Analysis

Students were frustrated that there wasn't any trusted application they could use to buy products from other Northeastern students.

Students struggled to find sellers in nearby locations.

Found it inconvenient to sell and buy items through Northeastern whatsapp communities.

International students found it challenging to buy essential items at affordable prices during their first month in Boston.

Our MVP

Type of MVP - Concierge MVP

Our MVP is a dedicated website called Northeastern Marketplace. Northeastern students interested in selling items can sign up using their Northeastern Email ID and post their listings on the website. Interested buyers can sign up using their Northeastern Email ID, browse through the listings and reach out to the sellers using the contact details provided in the listing.

Success metrics of the MVP

User Acquisition

- Number of users downloading/signing up.

User Engagement

- Number of sellers posting their listings.
- Number of listings in a day.
- Number of buyers buying the items.
- Number of purchases in a day.

Northstar Metric -
Number of items sold in a day

Uber drivers have a suicide rate that is **46%** higher than the national average.

Uber: Uber Driver
Mental Health: Stress Management

A Positive Path for Uber Drivers

Uber
→

By:
Pragnesh Anekal
Prateek Shetty
Riya Singh

Problem Statement

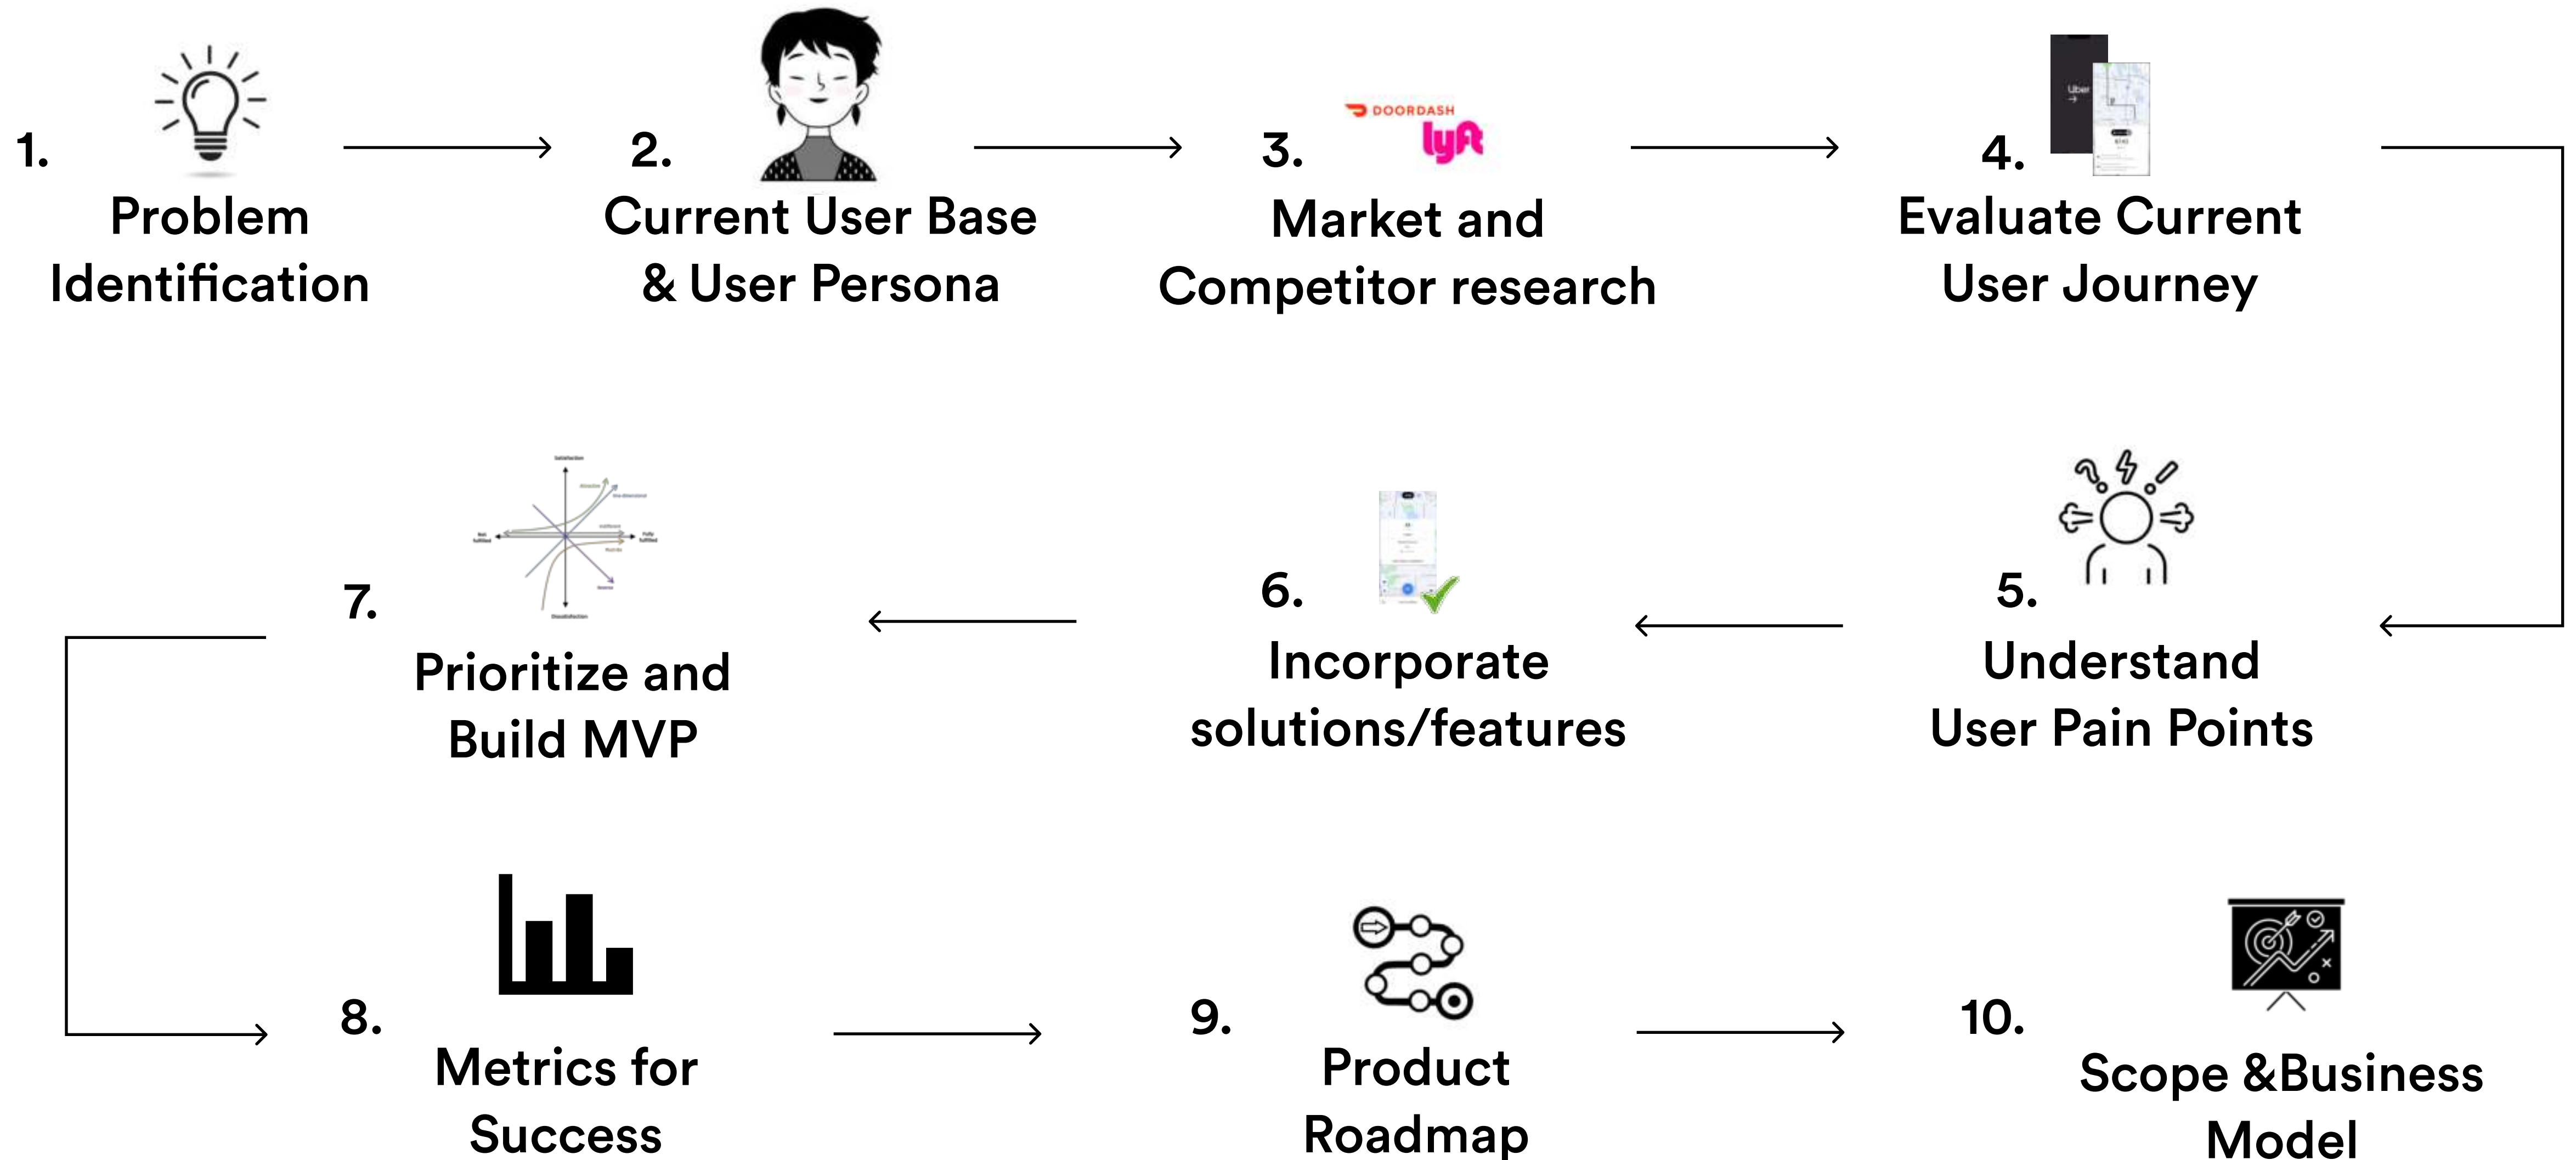

Uber
→

- **Gap:** Uber drivers face a perpetual cycle of stress, due to challenging rides, traffic, and unpredictable earnings.
- **Orientation:** Originating in congested urban cities, this challenge has escalated.
- **Impact:** Constant stress lowers service quality, offering a subpar experience for drivers and passengers.
- **Importance:** Prioritizing driver well-being is crucial, aligning with Uber's vision to set the world in motion for all.

Approach

Uber
→

Vision

Uber
→

To champion the well-being and mental health of Uber drivers through in-app tools and services, promoting a seamless driving experience, and ultimately becoming the premier ride-sharing platform, enhancing the global movement experience for all.

Revenue

Carlos

A 45 year old full-time Uber driver based out of NYC.

Goals:

- Save up for a down payment on a house
- Earn a good living for his family
- Be his own boss

Pain Points:

- Managing physical and mental toll of long driving shifts
- Heavy traffic
- Driving in bad weather

Andrea

A 35 year old high-school teacher working part-time as an Uber driver in LA.

Goals:

- To pay off her credit card debt
- To save for her children's education
- To travel more

Pain Points:

- Managing difficult customers
- Heavy traffic
- Balancing work and family life
- Fear of crime

Jack

A 25 year old student (part-time Uber driver) in Austin.

Goals:

- To graduate from college with little or no debt
- To start his own business
- To meet new people

Pain Points:

- Occasional difficult passengers
- Fear of crime

Says 

- “Tired of driving in heavy traffic all day.”
- “Had a few difficult passengers who have made me feel uncomfortable.”
- “Like meeting new people, so driving for Uber is a good way to do that.”

Thinks 

- “I know I have to deal with traffic to make money.”
- “I’ve felt uneasy with some passengers, but fear reporting them due to potential retaliation.”
- “I’m enjoying meeting new people.”

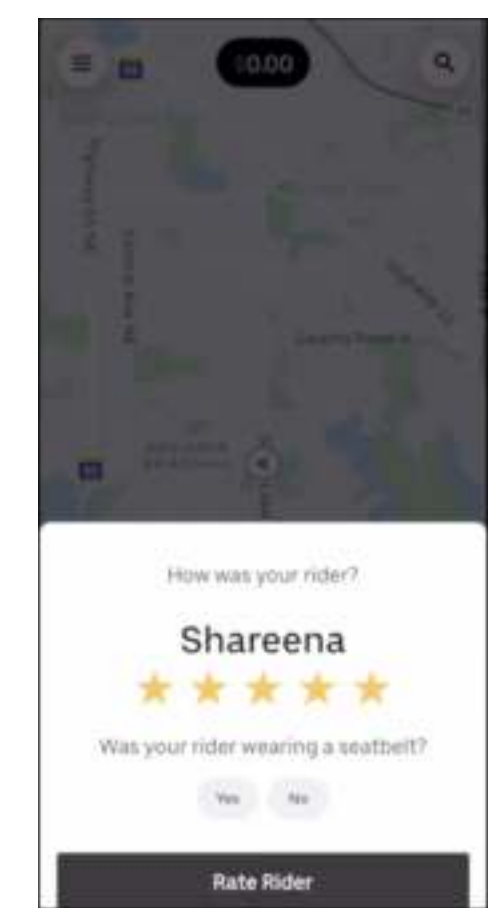

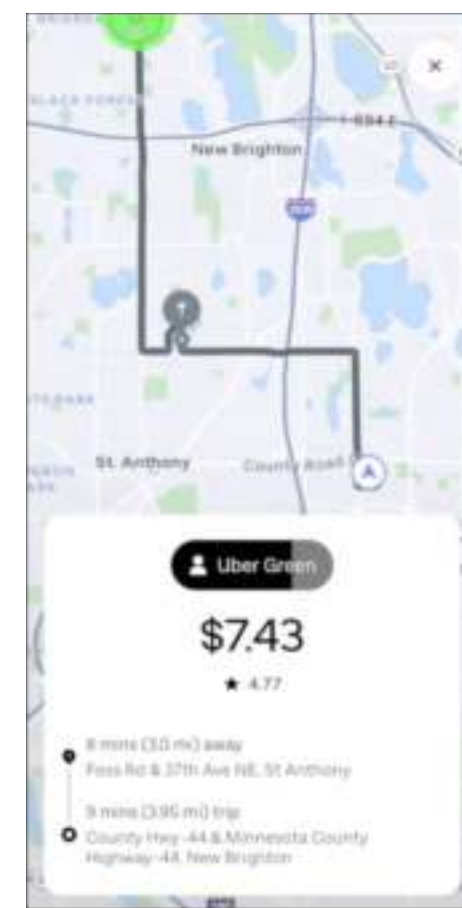

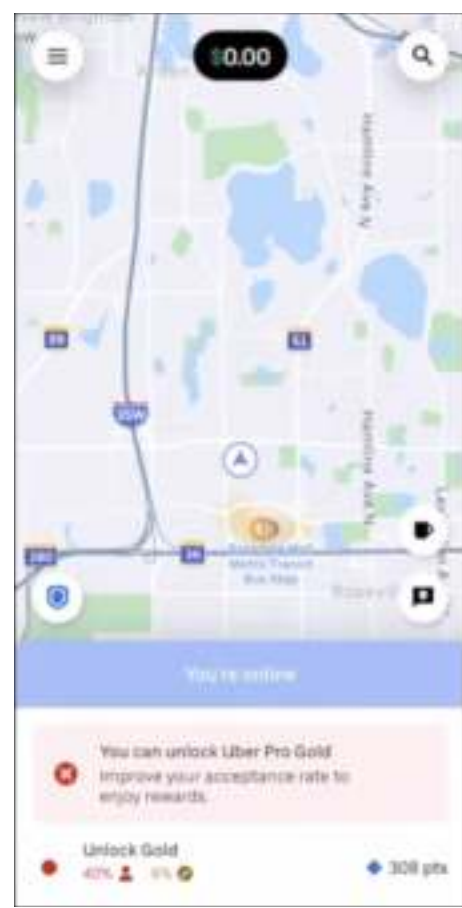

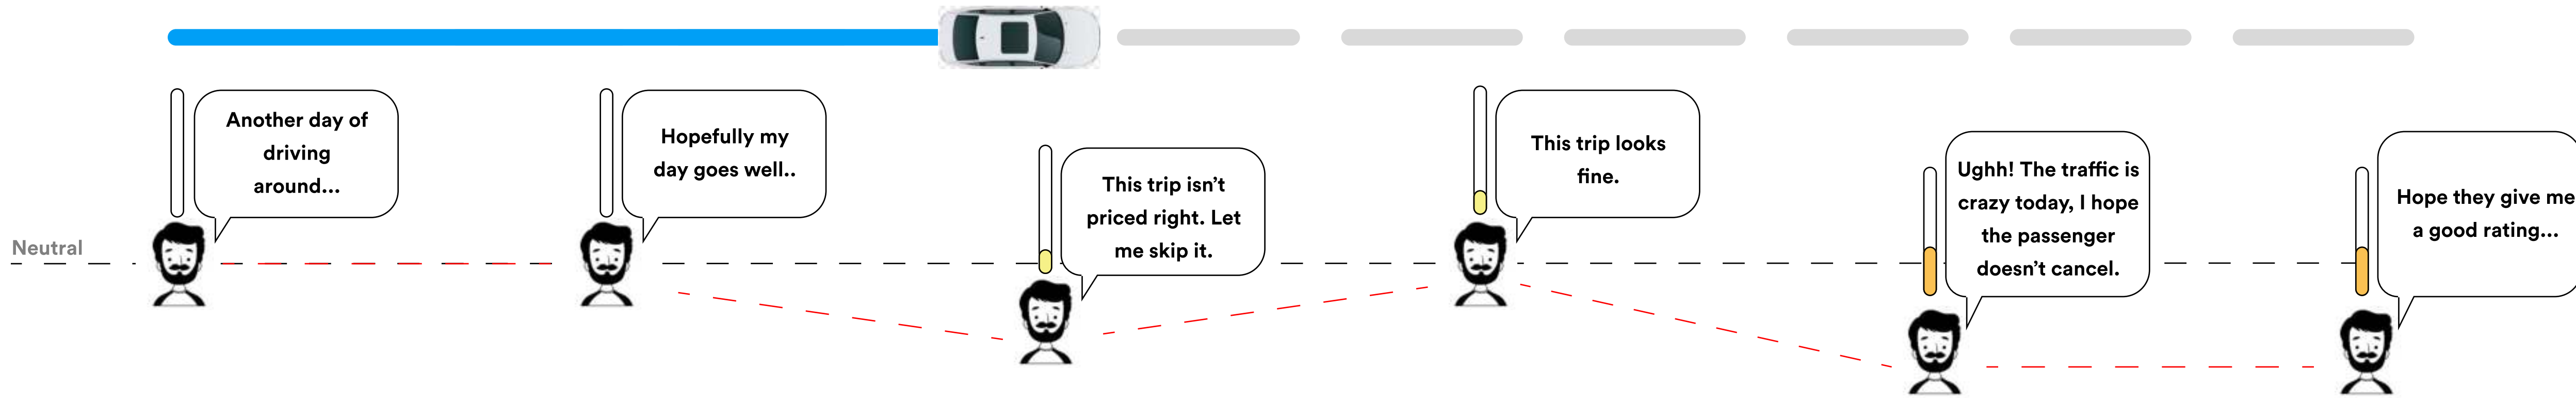

Feels 

- Stressed
- Frustrated
- Anxious
- Optimistic

Does 

- Drives all day, taking as many rides as he can.
- Becomes selective about the rides she accepts.
- Tries to be friendly and outgoing to his passengers.
